Annotate the Video Using the Multiple Text Boxes
Annotate means to add words to a video section.

press to continue

← 100% ← 50% ► 100% ► 50% ► 25% → 50% → 100%

▼ ▲ **00:00:27** 🕐 Start
▼ ▲ **00:00:29** End 🕐

After we have set a **Start** & **End** time,
we then **add words** about that section.
We **type in the text boxes**, a description of the section.
We describe what we see in the video in the text boxes.
There are **three text boxes** to enable categories of data.
For example, for Truth Detection, the first text box might be used for Shrugs found, the middle text box for Words Spoken, and the third text box for investigators' Conclusion on the section.

Double Shoulder Shrug

We first review the time defined and data we typed.
Then we click the Add Record Button.
This will add a record at the bottom of the page.
Each new record is placed at the bottom of the list.
This enables an easy vertical scrolling viewing experience.
